O2 web

O2 Web ranks among the finalists at the 43rd Mercuriades Awards

Montreal, March 27, 2023 – O2 Web, an agency that specializes in integrated e-commerce solutions, is pleased to announce that it has been shortlisted for a prestigious Mercuriades Award in the tech innovation category. Being nominated as a finalist underscores the agency continuous efforts to apply new technologies in the e-commerce industry.

"Our team is honoured to be up for a Mercuriades Award. We are delighted to be recognized for our efforts over recent years to use cutting-edge e-commerce technologies to meet the business needs of our clients" said Charles Guimont, President of O2 Web.

The Mercuriades are presented annually by the federation of Quebec chambers of commerce (FCCQ) and are considered among the most prestigious business awards in the province. The Mercuriades highlight innovation, entrepreneurship and success in Quebec businesses.
O2 Web would like to thank its team, clients and partners for helping make this recognition possible.

The winners of the Mercuriades will be announced on May 23 in Montreal.

About O2 Web

Founded in Quebec City in 2006, O2 Web specializes in developing and growing integrated and scalable e-commerce solutions using the latest headless and composable commerce technologies. The agency's clients include manufacturing companies and distributors (BRP, Toromont CAT, etc.), major retailers (Must, Zadig & Voltaire, Patrick Morin, etc.) and large organizations (Cogeco, Arc'teryx, Thrasio, etc.). In all its dealings, O2 Web's commitment remains the same: helping clients effectively use new technologies to grow their business and achieve their full potential.
